Hammered Bronze Coffee Table

The Hammered Bronze Coffee Table is the purest and most resolved expression of our commitment to the handmade surface, a piece where the making process is celebrated across every face of every element, and where the quality of the metalwork is the undisputed subject of the design. The frame is a complete, fully enclosed rectangle, four sides of flat-faced steel, each one worked by hand with an all-over hammered texture of extraordinary richness and depth, the surface built up and broken back until it achieves that characteristic play of peaks and valleys that catches the flamed bronze finish differently at every angle and in every light condition. The glass top sits inset within this frame rather than resting upon it, held securely on all four sides by the enclosing metalwork, a detail that gives the piece a precision and completeness that makes the glass and frame feel like a single unified object rather than a top and a base in conversation. The transparency of the glass allows the floor beneath to remain visible, giving the piece a lightness that balances the considerable presence of the bronzework beautifully, while the richly textured frame glows around the perimeter with a warmth and depth that makes this a bronze and glass coffee table of genuine distinction.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
