Portland Coffee Table

The Portland Coffee Table shares the same architectural vocabulary as its side table sibling, a bold, geometric language of flat-faced rectangular sections assembled with building-like precision. At coffee table scale, the composition takes on an entirely new quality of presence and gravitas.

The stepped stretcher detail at the base creates a shadow line of real sophistication that anchors the piece to the floor with considerable visual weight whilst keeping the form open and light. Every surface carries an allover hammered texture that catches the Tudor silver finish with mottled, complex beauty, cool and lustrous, moving between pale pewter and champagne tones as light shifts.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
