Tapered Coffee Table

The Tapered Leg Coffee Table is a study in the power of proportion, a piece that achieves its considerable presence not through decoration or complexity but through the absolute rightness of its dimensions and the quality of its making. Four tapering legs, each one hand forged and finished with a subtle hammered texture that catches the flamed bronze finish with a warmth and depth that grows more interesting the closer you look, carry a generous limestone top at precisely the height and scale that a living room demands, low enough to feel relaxed and unhurried, wide enough to be genuinely useful, long enough to anchor even the most substantial sofa. It is the kind of coffee table that interior designers return to again and again, precisely because it has the confidence to let everything around it shine without competing, a piece of real quality that improves every room it enters and complements every style from the boldly contemporary to the quietly traditional. The limestone top, with its pale, natural surface and fine fossil rich texture, brings a material honesty and warmth to the piece that manufactured surfaces can never replicate.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
