Beaumont Console Table

The Beaumont Console is a piece about the line, not the straight line of architecture, but the living, breathing line of a draughtsman's hand moving with complete confidence across the page. Three slender legs taper organically from the apron to the floor, splaying outward with quiet elegance before being connected by a curved stretcher that arcs gracefully at floor level.

Finished in flamed bronze, the warm, deeply complex tones develop a beautiful iridescence throughout the day. The smooth, rounded surfaces catch the finish with a luminosity that feels almost liquid. The pale limestone top, with its rounded corners, completes the composition with natural quietness, allowing the exceptional metalwork to speak without interruption.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
