Channon Console

The Channon Console is functional design distilled to its essence. Four generous drawers with understated metal handles span the full width, providing substantial storage without visual compromise. The dark wood top anchors the piece with quiet authority, while the tapered steel legs create an open, airy base beneath.

Steel and wood work in perfect harmony, allowing neither to dominate. The skeletal frame supports considerable weight with effortless grace, negative space creating lightness that contradicts the console's functional capacity. A piece that commands attention through presence rather than ornament.

Handmade to order to your exact specifications. It works equally well in contemporary or transitional spaces, earning its place through both beauty and function. Available in bespoke sizes with a choice of finishes, tops, and handle styles.
