Clifton Console Table

The Clifton Console is built on the conviction that a console should feel like a single, uninterrupted thought, one continuous line of metal that descends from the top, turns at the floor and rises again, with no unnecessary joints or decorative additions.

The frame is a clean waterfall form, two sides and a connecting base rail forming a precise rectangular enclosure. Every surface has been heavily hammered by hand, the allover dimpled texture transforming pure geometry into something genuinely alive and tactile.

The hammered finish catches the flamed bronze with warmth and complexity that shifts continuously across the day. The interplay of light and shadow gives the piece vitality a smooth surface could never achieve.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
