Cocktail Console Table

The Cocktail Console is an unapologetic celebration of Art Deco at its most assured and glamorous. Five steel rails arc in concentric U-forms from a weighted trapezoidal plinth, each following the same curve at a slightly different radius.

The layering creates a shadow play that makes the base appear to ripple, like a harp string caught mid-vibration. The warm, golden tones of the metalwork glow with a period richness, and the hand-worked surface gives the repeating rails a life no machine could match. The pale limestone top sits above with clean, horizontal authority.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
