Genesis Console Table

The Genesis Console is perhaps the most personal piece I have ever made, an attempt to visualise the moment of creation itself, that primordial instant when order begins to emerge from chaos. The base is a dense, interlocking labyrinth of hand-forged steel rods, each one bent, twisted and connected in a composition that references everything from tectonic fault lines to aerial maps of ancient river systems, yet remains entirely abstract and open to interpretation. No two sections are alike, and the iron black finish deepens the sense of raw, elemental energy, as though the piece has been pulled directly from the earth. A clean limestone top floats above this extraordinary base with deliberate restraint, its simplicity providing the perfect counterpoint to the explosive complexity beneath.

The Genesis Console is a limited edition of just three pieces, with only one now remaining, a truly unique console table and a collector's work of art.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
