Greenwich Console Table

The Greenwich Console came from a desire to strip everything back and let pure geometry do the work. I was drawn to the bold, graphic language of mid-century modernism and the clean lines of Japanese Torii gates, and wanted to create something that felt both monumental and weightless in equal measure. Two rectangular frames form the base, their flat faced steel sections finished in gold leaf that has been worked to retain a subtle, hand applied texture, giving the surface a warmth and vitality that polished metal simply cannot match. The top floats above the base on a raised central support, creating a satisfying sense of elevation and shadow that shifts as the light moves through a room. Paired with a Jura Beige limestone top, its sandy, fossil-flecked surface is a perfect counterpoint to the gleaming gold beneath.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
