Hatfield Console Table

The Hatfield Console draws its inspiration from the ancient woodland and historic parkland of Hatfield House, where gnarled branches and centuries old trees create a natural architecture of extraordinary quiet beauty, I wanted to bring that same organic, unhurried quality into the home. The four legs and connecting stretcher are hand-forged to mimic the irregular, knotted surface of aged timber, each one textured and subtly varied so that no two are ever quite alike, then finished in a deep blackened bronze that lends the base a brooding, almost geological presence. Set against this darkened foundation, the 30mm Arctic Cream marble top complements the frame perfectly with its bold, sweeping veins of charcoal and slate cutting dramatically across a pale ground, echoing the organic energy of the metalwork beneath in an entirely natural way.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
