Icicle Console Table Gold

The Icicle Console in gold was a natural evolution of the original design, the same inspiration drawn from nature's most fleeting winter sculpture, but reimagined in a warmer, more luxurious register. Where the silver speaks of ice and frost, the gold leaf finish transforms those same hand-forged steel spires into something altogether more sumptuous; a cascade of molten stalactites that catch the light with a richness that feels both ancient and contemporary. Paired with a warm limestone top, whose subtle texture and natural tonality complement the burnished gold beneath, this version of the Icicle takes on an almost archaeological quality, as though it has been unearthed from some extraordinary lost civilisation.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
