Icicle Console Table Silver

The Icicle Console was born from a moment of stillness, standing in a frozen Somerset landscape, watching a row of icicles hang suspended in time, each one a study in fragile, pointed perfection. I wanted to capture that fleeting natural phenomenon and render it permanent in metal; to freeze the moment entirely. The result is a forest of hand-forged steel spires, each individually tapered to a sharp point and finished in silver leaf, cascading downward at varying lengths from the apron of the table like a winter eave caught mid-thaw, dramatic and delicate all at once. Topped with a slab of cool Carrara marble, whose soft grey veining echoes the silvered steel beneath, this unique console table is as refined as it is arresting, designed to command attention whether anchoring a grand entrance hall or bringing sculptural drama to a living space. A truly bespoke luxury console table, made to last a lifetime.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
