Alexandria Side Table

The Alexandria was inspired by the ancient world's great meeting point of East and West, a city that for centuries represented the pinnacle of civilised refinement, where beauty and intellect were inseparable and every object of daily life was treated as worthy of the finest craftsmanship. The design distils that spirit into something entirely contemporary, four clean, straight legs connected by two circular rings at top and bottom, the geometry precise and unhurried, the proportions considered with the same care one might bring to a piece of architecture. Finished in flamed bronze, the warm, darkened metalwork has a depth and gravitas that feels genuinely ancient, as though the piece has accumulated its character over many decades rather than emerging fully formed from our Somerset studio. Black glass tops both the upper surface and the lower shelf, its deep, reflective quality creating a beautiful interplay with the bronze work, dark mirroring dark, each surface amplifying the other.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
