Champagne Side Tables

The Champagne Side Table is perhaps the most purely elegant piece in our collection, a design that arrived fully formed in the studio one afternoon and has remained almost entirely unchanged since, because there was simply nothing left to add or remove. Four beautifully slender legs, each one tapering to the floor, rise and flare outward at the top into a pair of gently arched flutes that cradle the circular top with a grace that is almost botanical, reminiscent of the way a flower head sits above its stem, or the calyx of a blossom holds its petals. Finished in bitumen on brown, the warm, honeyed tones of the metalwork glow with a depth and richness that gives the piece a presence far exceeding its delicate footprint, while the pale limestone top floats above the golden base with serene simplicity. This is a sculptural side table that earns its place in any interior through sheer beauty of form.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
