Sculptural Side Table

The Sculptural Side Table was driven by a sense of vertical drama, a piece with the poise of a stem and the quiet authority of a plinth. Four hand-forged legs, each one tapered to a fine point, rise from the floor with reed-like slenderness before meeting a circular collar that cradles the top with understated precision.

The subtle hammered texture running the length of each leg catches the flamed bronze finish beautifully, adding warmth and complexity to the surface. Topped with a round limestone slab whose soft, natural grain complements the bronze work perfectly.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
