Tapered Leg Side Table with Decorative Feet

Sometimes the most powerful design statement is one of absolute simplicity, and The Tapered Leg Side Table with Decorative Feet is a piece that I have returned to again and again precisely because it asks nothing unnecessary of the eye. Four elegantly tapered legs draw the frame down to small, rounded feet, a quiet classical reference that grounds the design with just enough personality to reward close attention without ever announcing itself. The slender apron and pin-sharp proportions give the piece a lightness and poise that makes it at home in almost any interior, from the grand to the quietly considered. Finished in flamed bronze, whose warm, complex tones deepen beautifully over time, and topped with a clean limestone slab, this sculptural side table achieves that most difficult of design goals

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
