Zeppelin Side Table

The Zeppelin was inspired by the elegance of flight, streamlined forms and tapered structures where engineering and beauty were inseparable. Four slender steel spars rise from the ground, cross at a central point, then splay outward to meet the tabletop, creating a base of extraordinary sculptural energy.

The crossing point is the heart of the piece, a detail of real precision and craft. Finished in bitumen on brown, the warm, burnished tones give the piece richness and depth, while the clean round limestone top provides a calm counterpoint to the drama beneath.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.
