Zeppelin Side Table

The Zeppelin was inspired by the elegance of flight, the streamlined forms, tapered structures and dynamic tension found in early aviation design, where engineering and beauty were inseparable. Four slender steel spars rise from the ground and cross at a central point before splaying outward again to meet the tabletop, creating a base of extraordinary sculptural energy that seems to be in constant motion even when perfectly still. The crossing point, where all four elements converge and lock, is the heart of the piece, a detail of real precision and craft that rewards close inspection. Finished in bitumen on brown, the warm, burnished tones of the metalwork give the piece a richness and depth that lifts it well beyond the functional, while the clean round limestone top provides a calm, pale counterpoint to the drama beneath.

All pieces from our Somerset studio, are handmade to order to your exact specifications and available in bespoke sizes with a choice of finishes and tops.

* Dimensions are provided as a guide, all Adam Williams Design products are made by hand and variations may occur in some products. **Lead Time:** Approx. 8 weeks
